

Pipe Layer Career Opportunity

B. Blair is looking to hire Pipe Layers with experience laying sanitary, storm and watermain systems. The opening is for a skilled pipe layer with 3 to 5 years' experience. This position reports to the Pipe Foreman.

Job Responsibilities – What will you do?

- Understands trench safety requirements, soil types and use of shoring systems.
- Regular use of hand tools: shovel, digging bar, demo saw, laser level & grade rod, and pipe laser.
- Maintains depth by checking the laser beam or grade stakes and communicating with the operator.
- Sets up the pipe laser and periodically ensures that trenches are at the proper grade by frequently checking the pipe laser or grade stakes.
- Communicates with the operator about the alignment of the pipe by using hand signals to ensure the proper depth.
- Effectively communicates with operator and laborers to set concrete structures: inlets, sanitary manholes, meter pits, etc.
- Directs the Pipe Laborer on what tools are needed in the trench, the length of the pipe, and how to cut the pipe.

Qualifications – Who are we looking for?

- 3-5 years of pipe laying experience
- Ability to work in a fast-paced environment
- Strong collaboration and communication skills
- Ability to work in a team environment
- Dependable transportation to work daily
- Pass drug test prior to employment
- Valid Driver's License
